How to delete old backups

1. If you just need to store the `N` of the last backups, then:

In the configuration file ./bash-backuper-package/src/1.3/main.conf, set the value of the parameter `MAX_NUMBER_ARCHIVE'

```
...

# NUMBER OF STORED ARCHIVES (FOR ROTATION BY COUNTER)
# or set '0', if you haven't limit
export readonly MAX_NUMBER_ARCHIVES=2;

...

2. If you need to take into account the date of the actua
lity of the backup copies, then:
```

In the configuration file ./bash-backuper-package/src/1.3/main.conf, set the value of the parameter `MAX_NUMBER_DAYS'

```
    ...

# NUMBER OF DAYS FOR WHICH TO STORE ARCHIVES (FOR ROTATIO
N BY DATE)
# or set '0', if you haven't limit
```

```
export readonly MAX_NUMBER_DAYS=2

    ...
```
